Transfer Ownership Settlements

Last Modified on 11/20/2026 3:57 pm CST

When using the *Post Settlements Live* option at *Setup / Preferences* on the *Posting* tab, it is possible to transfer part or all of an open, posted Settlement from one Customer to another. The ToDPR category remains the same.

1. Go to *Grain / Operations / Transfer Ownership Settlement*.
2. Select a Settlement to transfer.
3. Choose the Customer receiving the Settlement.
4. Enter the Contract number if needed.
5. Select **Apply to Destination**.

Cross-referencing comments are added to both the old and the new Settlement.
