

# Product Delivery Orders - SKY Customer

Last Modified on 03/24/2022 3:20 pm CDT

Product Delivery Orders in Agvance can be used to invoice customers directly for Energy product(s) delivered or to create Energy Tickets. Energy Tickets are later imported into Agvance Invoices.

A listing of all Product Delivery Orders for the selected customer is displayed. Search for specific Product Delivery Orders by *Order #*, *Tank SN*, *Order Date*, *Due Date*, *Status*, and *User*. Full or partial dates can be searched.

This information is view-only and any changes to a Product Delivery Order must be made in the Agvance Energy module.
