

Work Orders - SKY Customer

Last Modified on 03/24/2022 3:21 pm CDT

Agvance SKY Work Orders make it easy for on-the-go staff to enter orders for services like crop scouting and soil testing. Work Orders are saved in Agvance as Delivery Tickets, which can be dispatched out using the Agvance Dispatch module.

Use the *Search* field to find specific Work Orders by *Work Order #*, *Service Name*, *Ticket Date*, or *User*. Full or partial dates can be searched.

Select the **Ellipsis** to **Reverse** or **Void** a Work Order.

The screenshot displays the user interface for Adam Carmex. At the top, there is a navigation bar with tabs for Bookings, Plans, Blends, Deliveries, Sales Orders, Product Delivery Orders, and Work Orders. Below the navigation bar is a search bar labeled "Search work orders". A table below the search bar contains one row of data:

Work Order #	Service Name	Ticket Date	Status	User	
12000049	Dry Spreading	03/24/2021	Not Loaded	KB	⋮
