

Heartland Online Payment Setup

Last Modified on 10/30/2025 1:06 pm CDT

Online credit card and ACH payments can be made by Growers in the Grower360 app. Setup is required in both Agvance and Agvance SKY before online credit card and/or ACH payments can be processed. A relationship with Heartland Payment Processing must also be established prior to setting up.

Initiate Heartland

To learn more about Heartland payment processing and/or initiate an account, see [here](#).

Select **Processing** for information regarding card/ACH processing rates and PCI compliance. Choose **Support** for questions and inquiries about Heartland fees and processes.

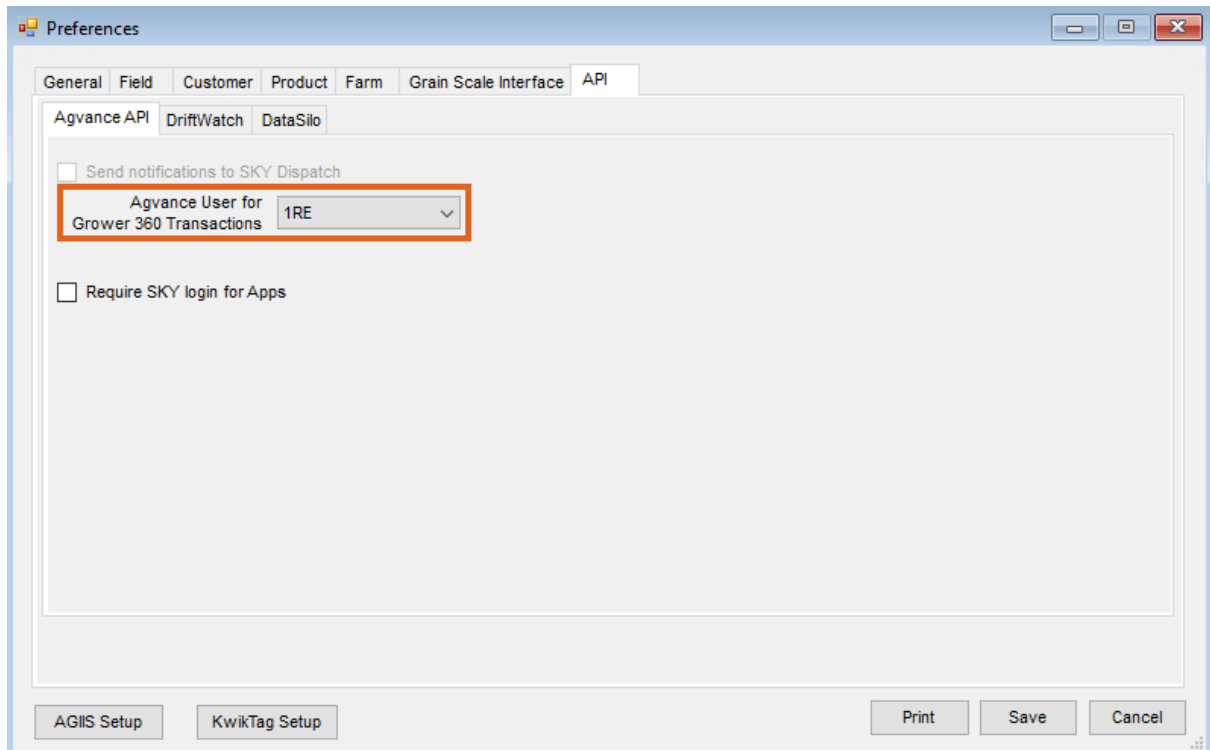

When ready, select one of the options below on the homepage to initiate setup with Heartland:

- **Sign up: Grower360** (for your customers making payments through Grower360)
- **Sign up: Customer Portal** (for internal SKY Customer users to make payments)

Agvance Setup

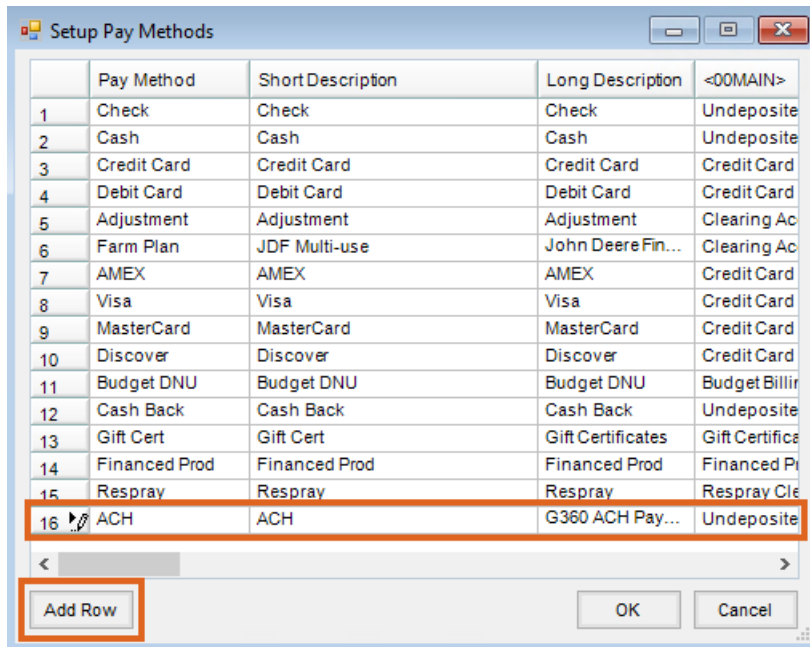

1. Go to the **API** tab at *Hub / Setup / Company Preferences*.
2. On the **Agvance API** tab, choose the Agvance User to be associated with transactions taken from Grower360.

Select **Save**.

The screenshot shows a software window titled "Preferences" with several tabs: General, Field, Customer, Product, Farm, Grain Scale Interface, and API. The API tab is active, and within it, the "Agvance API" sub-tab is selected. There are three sub-sections: "Agvance API", "DriftWatch", and "DataSilo". In the "Agvance API" section, there is a checkbox for "Send notifications to SKY Dispatch" which is unchecked. Below it is a dropdown menu labeled "Agvance User for Grower 360 Transactions" with the value "1RE" selected. Below that is another checkbox for "Require SKY login for Apps" which is also unchecked. At the bottom of the window, there are buttons for "AGIS Setup", "KwikTag Setup", "Print", "Save", and "Cancel".

- Go to *Accounting / Setup / A/R / Pay Methods* and choose **Add Row** to set up the Pay Method to be used on the online credit card payments. Select **OK**.

Note: The Pay Method can be set up using any name, *Short Description*, and *Long Description*. The GL Account for each location must be selected when setting up the new Pay Method. The Pay Method can be made inactive for locations not allowing online credit card payments by marking the *Inactive* checkbox on the *G/L Posting* tab of the Location profile at *Accounting / Setup / Locations*.

Agvance SKY Setup

- Log into Agvance SKY, then select **Admin**.
- Choose *Grower360* from the left navigation menu.
- Choose **Explore** on the *Finance and Reports* card, then select **Setup** on the *Online Payments* card.
- Select the form of payment to be accepted, then turn on the applicable payment types.

6. Select **Save**.

Note: API Keys for Heartland will not be visible after being entered for security purposes. If edits or changes to the key need to be made, delete the original key and select the + icon to re-enter the information.

7. From the *Credit Card Pay Method* drop-down, select the pay method set up in Agvance for Heartland credit card payments.

8. Optionally, select a pay method from the *Convenience Fee Pay Method* drop-down. This option is required for

applying convenience fees to credit card payments.

Note: Best practice is to select a method different than the credit card pay method to more easily identify convenience fees on the Agvance Payment Register.

9. Enter a transaction limit for credit card transactions in the (\$) *Transaction Limit* field. This is an optional setting that will stop single credit card transactions exceeding the specified limit. If not using transaction limits, enter 0.

(*\$*) Transaction Limit
\$5,000.00

10. Enter a convenience fee percentage for transactions in the (%) *Convenience Fee* field. This is an optional setting that will automatically apply the specified amount to all credit card transactions. The amount entered here must follow individual state guidelines and cannot exceed 4%. If not using convenience fees, enter 0. See the *Heartland Convenience Fee Calculations* tab for more information.

Name of Fee
Convenience Fee

Set the display name of the fee in Grower 360

(%) Convenience Fee
2

Must follow State guidelines for applying Convenience Fee to Payments

11. Enter payment term verbiage in the *Add Payment Terms* field. This is required for credit card payments and will be visible to the customer during the credit card payment process.

Required for Credit Card Payments

Must comply with the rules set forth by the respective national payment authorities (NACHA in the USA and Payments Canada in Canada)

Payment Terms *

By submitting a payment, I authorize my bank to debit my specified account for the amount of my payment. This is a one-time payment which will occur on the next business day or as soon as practical thereafter. If my payment cannot be completed for any reason, including insufficient funds or error in the information which I submitted, I will retain the same liability, which is my sole responsibility, for payment as though I had not attempted to make the payment. I also understand that additional fees and penalties may be collected to the extent of applicable law.

12. When all the necessary credit card options are selected, choose **Save New Settings**.

If accepting ACH payments through Grower360, that authorization language for the ACH should be included here to display to the customer from the *Payments* screen in Grower360. See the following as an example:

*By submitting a payment, I authorize my bank to debit my specified account for the amount of my payment. This is a one-time payment which will occur on the next business day or as soon as practical thereafter.
If my payment cannot be completed for any reason, including insufficient funds or error in the information which I submitted, I will retain the same liability, which is my sole responsibility, for payment as though I had not attempted to make the payment. I also understand that additional fees and penalties may be collected to the extent of applicable law.*

This exact language does not have to be used, but similar terms must be spelled out for customers to access from Grower360.

Heartland Convenience Fee Calculations

The amount received from Heartland will not exactly match the amount taken from the Customer's credit card payment.

When accepting credit card payments through Grower360 and choosing to implement a convenience fee of 3% (as an example), the amount received from Heartland will not exactly match the amount taken from the Customer's credit card payment because Heartland charges the 3% fee on the total amount collected from the Customer as well as a \$0.15 fee per transaction.

Amount Charged to Customer's Credit Card = Invoices - Discount Amount + Convenience Fee

Heartland applies the convenience fee to the amount charged to the Customer's card.

This means an additional 3% of the amount of the convenience fee being charged will be paid plus the transaction fee.

Example

The Customer's Invoice total after the discount was applied totaled \$3,741.13. The 3% convenience fee came to \$112.23. The additional amount expected to pay Heartland would be as follows:

$$3\% * 112.23 = 3.37$$

$$3.37 + 0.15 = 3.52$$
