- Estimated Delivery Date*:** 10/15/2024 (format: MM/DD/YYYY)

- Payment Term:** 2/10 net 30
- Sales Order Contract:** (empty text field)

4. Indicate the *Estimated Delivery Date*.
5. Choose the *Type* from the drop-down - *Pickup*, *Deliver*, or *Booking*.
6. Optionally select a *Payment Term* and/or a *Sales Order Contract* for this Sales Order from the respective drop-downs.
7. The *Start*, *Expiration*, and *Offer Expires Dates* are optional entries but can be helpful if populated.
 - **Expiration Date** – This defaults from the Sales Allocation, if selected. If this order is imported to a Booking, this *Expiration Date* imports into the Booking *Expiration Date*.
 - **Offer Expires Date** – This is used on Sales Orders with an *Offered* status. Populating this date helps keep some preferences true at *Planning / Setup / Location Preferences* on the *Sales Order Prefs* tab. If the *Offer Expires* date passes and the preference is set to *Disallow Approval of an Expired Sales Order*, the *Status* option of *Approved* will become disabled. However, expired Sales Orders can still be imported into a Booking if it was approved prior to that date. This date prints on the Sales Order.
8. Select the *Status* drop-down to choose *Offered*, *Approved*, or *Declined*. This will sync with Windows Agvance.
9. If applicable, enter the *Check Number*. This is limited to 10 characters.
10. The *Payment Date* is an optional field.

2. A **grid** of Products displays. Use the *Search* field to find the appropriate Product(s) or scroll through the list. The **Filters** button to the far right of the *Search* bar can be used to narrow down the list of Products.
