Last Modified on 08/29/2025 9:47 am CDT

Search for Deliveries by *Ticket number*, *Date*, *Customer*, or *Location* with the *Search* field.

Note: Deliveries must be enabled in [SKY Admin](#) before they can be viewed in SKY Order.

Select the **Ellipsis** icon to *Edit Delivery*, *View Delivery*, *View PDF*, *Download PDF*, *Reverse*, or *Void* a Delivery.

Add/Edit a Delivery

Delivery Tickets can be added by selecting **+ Add Order** at the bottom right corner of the page then choosing **+ New as Delivery**.

Note: Auto-numbering for Deliveries must be turned on in Agvance to create a Delivery in Order. The timing of turning on this feature impacts Agvance data. Please contact SSI for assistance.

If editing a Delivery Ticket, the *Location* and *Customer* cannot be edited. However, a *Ship To* can be selected for the Customer if applicable.
