

# Deliveries - SKY Order

Last Modified on 12/05/2024 9:58 am CST

Search for Deliveries by *Ticket number*, *Date*, *Customer*, or *Location* with the *Search* field.

**Note:** Deliveries must be enabled in [SKY Admin](#) before they can be viewed in SKY Order.

Select the **Ellipsis** icon to *Edit Delivery*, *View Delivery*, *View PDF*, *Download PDF*, *Reverse*, or *Void* a Delivery.

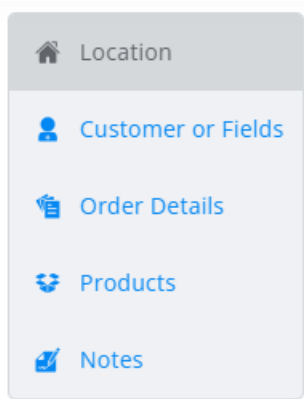

## Add/Edit a Delivery

Delivery Tickets can be added by selecting **+ Add Order** at the bottom right corner of the page then choosing **+ New as Delivery**.

**Note:** Auto-numbering for Deliveries must be turned on in Agvance to create a Delivery in Order. The timing of turning on this feature impacts Agvance data. Please contact SSI for assistance.

If editing a Delivery Ticket, the *Location* and *Customer* cannot be edited. However, a *Ship To* can be selected for the Customer if applicable.

Use the navigation on the left to move to different sections of the Delivery.

## Customer or Field

1. Under *Customer or Field*, choose **+ Add Customer** or **+ Add Field**. A **grid** of Customers (or Fields) displays. Use the *Search* field to find the specific Customer or scroll through the list. A maximum of eight Customers may be added. If adding by Field, only one Field can be selected. The **Filters** button to the far right of the *Search* bar can be used to narrow down the list of Customers.
