View Work Order information including the *Ticket #, Date, Location, Customer, Service Name, Field, and Status.*

Selecting the ticket number opens the Work Order as view-only information.

Work Orders can be added by selecting **+ Add Work Order**. Use the navigation on the left to move to different sections of the order form.

## Add a Work Order

### Location

1. Indicate the *Location*.
2. Once the Location is selected, choose the *Work Order Service*.

**Note:** Work Order Services are set up in **SKY Admin**.

Location * SSI Farm Services - IL	Work Order Service * Dry Fert
--------------------------------------	----------------------------------

Once a *Work Order Service* is selected, SKY Order will find the matching Product(s) for the Location where the Work Order is being created using the Product ID and Inventory Department Category.

### Scenario 1: All Products Have One Exact Match

- All Products on the Work Order Service type have one exact match.
- No dialog will display, and the Products will be added to the Work Order.

## Scenario 2: No Matching Products

- A window will display indicating there are no matching Products.
- Close/cancel this dialog. The Work Order Service will be removed from the Work Order (no Products will be added/removed).

## Scenario 3: Multiple Matching Products

- A window will display giving the ability to choose the correct Inventory Department from where the Product should be pulled.

## Scenario 4: Combination of Scenarios 1-3

- In this scenario, there are Products with no match and multiple matches. Products with an exact match will be added to the Work Order automatically and will not be included on the dialog. The *Acknowledge and Continue* checkbox must be selected before selecting **Replace Products** and will remove that Product from the order.

**Product(s) Not Available**

The following products have multiple instances in the location that have been selected for this order. Please choose which product to use on this order.

Original Product	Original Department
