Description

Analyzing company data is important to making good business decisions. Analytics Authoring is a web-based report tool that allows users to edit and build dashboards that will answer their unique business questions. In this course, users will learn how to use this powerful tool to edit Analytics standard dashboards to make them more relevant to their company as well as design new dashboards using our established data sources. The course includes classroom instruction with hands-on exercises to reinforce the concepts.

Learning Objectives

After completing this course, participants will:

- Be more aware of the tools available in Agvance Analytics
- Be able to effectively explore their data through Analytics
- Be able to modify existing dashboards to fit their specific needs
- Be able to create new dashboards from existing data sources

Time

The daily schedule for this two-day course is:

> Day 1: 9:00 a.m. – 4:00 p.m. Central Time
> Day 2: 9:00 a.m. – 4:00 p.m. Central Time

Location

This course is taught by an instructor in a Virtual Classroom.

Register

Select a date below to register for the course.

- **December 9-10, 2026**

Intended Audience

This training is designed for those with a SKY Analytics Web Authoring license who are interested in learning about the tools available in Analytics to customize standard dashboards or create their own custom reports using provided data sources.

Prerequisites

Participants must have Analytics Authoring permissions in Agvance SKY and it is recommended they have successfully completed the following eLearnings prior to attending this course:

- **Analytics 101**
- **Analytics 201 – Web Authors**

For your reference, links to additional educational resources are available within the eLearnings.

Materials and Equipment

- **Printed Manual** – A printed manual will be shipped to course registrants if registration is submitted 10 business days prior to the course.
- **Dual monitors with speakers and a microphone** – For your best experience, please plan to take the course in a quiet location using headphones with a mic and dual monitors.
- **Credentials** – Registrants will receive instructions on how to connect to Agvance SKY Analytics at the beginning of the class.
