New York Restricted Use Pesticide Report

Last Modified on 06/11/2025 11:08 am CDT

Reporting of Restricted Use Pesticide sales for the state of New York requires Products and Customers to be set up so the report can return the values required by New York State Department of Environmental Conservation.

Setup

1. Set a Location as the Product Master in the Hub or Accounting at Setup / Locations on the Profile tab.

G/L Posting P	references	cernic Address	Industers	_			
Location ID	zMast	Main Plar	nt Time Zon	e		\sim	Region
Name	zMast - MAST	ER PRODUCT	LOCATION O	NLY			
Address							Sub Region

Running the Report

1. Navigate to Accounting Reports / Accounts Receivable / Restricted Use Pesticides / New York Sales.

- A/R Restricted Use Pestici	des 💌
Connecticut Maine Massachusetts Michigan Minnesota New Hampshire New Hampshire Daily Use	Select Range Date Invoice # Fiscal Month Start 01/25/2024 End 01/25/2024
New York Applicators New York Sales Rhode Island Vermont Applicators Vermont Sales Indiana Alabama	Select Location All Select Select Customers All Select Select Salesperson All Select Select Products All Select
O Print Preview Load Set Save Set	Exclude Negative Quantities Suppress Header After First Page Report Year Business Name Commercial Permit #
	OK Cancel

- 2. Enter the desired range (Date, Invoice #, or Fiscal Month).
- Choose the Customers to be included on the report by selecting Cust. Class. and choosing the Commercial Classification set up above.
- 4. Select the Products to be included by choosing Prod. Class. and selecting the NY *Reportable* Classification set up above.
- 5. If a prior year dataset needs to be included, select it from the *Include Additional Dataset* drop-down.
- 6. Check to Exclude Negative Quantities to prevent negative quantities from being displayed on the report.
- 7. If the header information should only print on the first page of the report, check *Suppress Header After First Page*. This could be helpful if exporting the report to Excel.
- 8. Enter the *Report Year*, *Business Name*, and *Commercial Permit #*. If using a **Save Set**, this information would be saved.
- 9. When all information has been selected/entered, choose whether to Print or Preview then select OK.
