

Slow Moving Inventory Report

Last Modified on 03/01/2024 4:29 pm CST

The Slow Moving Inventory report displays Products that have sold less than the *Beginning Amount on Hand* quantity if the *Total Cost* of the current *Company Owned* quantity is higher than the amount entered in the *Total Cost Over* field.

Setup

Navigate to the Slow Moving Inventory report at *Accounting / Accounting Reports / Inventory / Inventory Status*.

The heading of the report displays the *Total Cost Over* and the designated cost being used in the report.

The *Inv. Units Amount on Hand*, *Unprocessed Delivery Tickets*, *Loaded Blends*, *Unprocessed Purchases*, and *Billing Units Company Owned* should match a current *Company Owned* Inventory Statement with the same cost.

Slow Moving Inventory
Company Owned Value of \$10000 or more
Using Average Cost

Dry Fert -00 - 00MAIN

Total Company Owned For Department Dry Fert -00 - 00MAIN								368,491.61		

- **Cost** – The *Cost* column reflects the current billing unit cost based on the *Use Which Cost* selection on the *Report Criteria* window.
- **Total Cost** – The *Total Cost* column is calculated using the *Cost* multiplied by the *Billing Units Company Owned*.
- **Beginning Year Amount on Hand** – The *Beginning Year Amount on Hand* is the *Inventory Statement Amount*

on Hand for the beginning period.

- **Total Outbound Quantity** – The *Total Outbound Quantity* is the quantity of Inventory Units sold year-to-date.
