

Print Methods

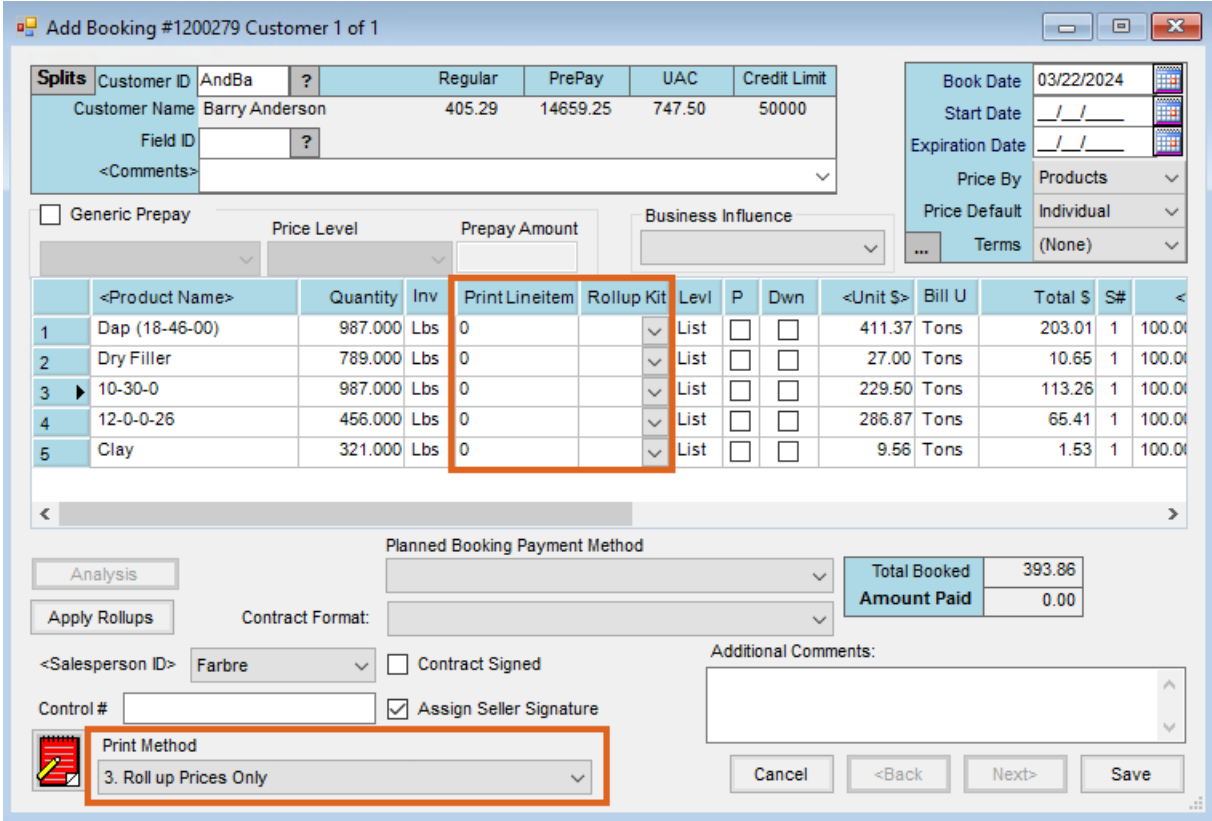

Last Modified on 03/22/2024 10:44 am CDT

When a *Print Method* other than *No Roll-up* is selected on a Booking, the Booking document reflects the selected *Print Method*. Additionally, Booking Contracts roll up Products according to the *Print Method* selected on the Booking.

At *Accounting / A/R / Product Bookings* on the *Add Booking* window, several roll up *Print Method* choices are available. Select a roll-up *Print Method* and choose **Save** to populate the *Print Lineitem* column and impact the printed Booking as well as associated Contract Bookings.

In this example, the *Print Lineitem* column is zero, the *Rollup Kit* column is empty, and a *Print Method* other than *No Roll up* is selected.

Review the Booking on the *Edit Booking* window. The *Print Lineitem* column is populated with 0 in the first line and a 1 in all other lines.
