

# Vendor Product Quotes

Last Modified on 02/23/2026 10:59 am CST

With similar functionality to Customer Product Quotes, this feature allows pricing that a Vendor has promised on a Product to be saved. Quotes may be saved at either the Vendor *Profile* screen or the *Purchase Order* screen. At the *Purchase Order* screen, the same icons are used as Customer Product Quotes to signify when a quote exists.

At the *Vendor Profile* tab or the *Purchase Order* screen, select the **Quote** button to show Product quotes in place for the currently selected Vendor.

The **Reports** button gives the option to run a Product Quotes report with this Vendor or all Vendors and provides sorting options.
