

Edit SKY User

Last Modified on 03/31/2026 11:32 am CDT

Selecting the **Pencil** icon to the right of the User opens the *Edit User* page.

On the *Edit User* page, the *User Name* can be edited and an *Agvance User* associated with the SKY User can be selected using the drop-down menu. Toggle the *User Status* switch to mark a User from *Active* to *Inactive*.

Assign Admin privileges for Grower360, Order, Company Admin, and the Task Center using the toggles in the *Permissions* area.

- Grower360 Admin**
Grower360 Admins can manage Grower360 users and settings
- Order Admin**
Order admins can manage settings related to entering orders in SKY
- Company Admin**
Company Admins can manage SKY users and their access to SKY features
- Task Center Admin**
Task Center Admins can manage and assign tasks in the Task Center
- Analytics Author**
Analytics Authors can create, edit, and save custom dashboards within the Company Content folder. If you would like to have Authoring enabled or disabled for this user, please reach out to your SSI Sales representative.

- **Grower360 Admin** – Manage Grower360 Users and settings.
- **Order Admin** – Manage settings related to entering Orders in SKY.
- **Company Admin** – Manage SKY Users and their access to SKY features.

- **Task Center Admin** – Manage and assign tasks in the Task Center.
- **Analytics Author** – Analytics Authors can create, edit, and save custom dashboards within the *Company Content* folder. To enable/disable authoring for a User, reach out to an SSI Sales representative.

Additionally, use the *Features* toggles to turn access on or off to various areas of SKY. The features listed are dependent upon the areas of SKY currently available for the company.

Analytics – This provides access to the **SKY Analytics** application.

- Analytics
- Accounts Receivable
- Admin
- Agronomy
- Company Content
- Customer
- Energy
- Grain
- Ledger
- Logistics
- Mapping
- Patronage
- Product
- Vendor

- **Accounts Receivable** – This provides access to all Accounts Receivable dashboards.
- **Admin** – This provides access to all admin-related dashboards.
- **Agronomy** – This provides access to all Agronomy dashboards.
- **Company Content** – This provides access to all company-specific content, including custom-built dashboards.
- **Customer** – This provides access to all dashboards under the *Customer* menu of Analytics, include A/R, Grain, and Sales dashboards.
- **Energy** – This provides access to all Energy dashboards.
- **Grain** – This provides access to all Grain dashboards.
- **Ledger** – This provides access to all dashboards under the *Ledger* menu of Analytics, which includes the

Income Statement Analysis and Balance Sheet Analysis.

- **Logistics** – This provides access to all dashboards under the *Logistics* menu of Analytics. This includes reports on Agronomy operations.
