

Grower360 Notifications

Last Modified on 12/16/2024 8:16 am CST

Notifications allow for communication with Grower360 customers through the Grower360 application as well as email.

Notifications can be set up under *Grower360* in SKY Admin. Select **Manage** on the *Notifications* card to review *Sent Notifications* and/or *Notification Settings*.

Notifications

Communicate with users through Grower 360.

Sent Notifications

To see notifications sent to Growers, choose **Review** on the *Sent Notifications* card.

Sent Notifications

Review notifications sent Growers.

[REVIEW](#)

Optionally use the *Search* field to find specific notifications that have been sent.

[← Back](#) | [Grower360 Management](#) > [Notifications](#) > [Sent Notifications](#)

Sent Notifications

3-21-2024 2:28 PM **All Grower 360 Users**
Gloves on Sale!
Get ready for winter! All gloves are 15% through Saturday.

Notification Settings

To manage notification settings and communicate through Grower360, select **Setup** on the *Notification Settings* card.

Notification Settings

Manage notification settings and communicate with users through Grower360

SETUP

From here, opt to notify Growers via Grower360 by turning on the *Invoices*, *Scale Tickets*, and/or *Statements* options. If *Scale Tickets* is turned on, indicate the *Grade Factor* to display in notifications.

Notify Growers via Grower360.

Test Weight

Statements

When enabled, notifications will be sent to Growers who have *Email/Text Notifications* set up in Grower360 and will also display as a new item under the **Notifications** icon.

New Notification

To create a new notification, select **+New Notification** at the bottom right of the page.

One or more Customer Classifications can be selected from the *To* field on the *New Notification* page. The options in this field are tied directly to the Customer Classifications set in Agvance. Notifications are only sent to customers in the Classification with a linked Grower360 account. If a Customer is present in more than one selected Customer Classification, that Customer will only receive one notification.

Message

Get ready for winter! All gloves are 15% off through Saturday.

Cancel Send

Once the *Subject* and *Message* fields are populated, select **Send** to send the notification to the selected customers or **Cancel** to discard the notification and return to the *Notifications* page. A confirmation stating *Notification Sent* displays and the message is now listed under *Sent Notifications*.

Customers can view the notification in their email inbox or by selecting the **Bell** icon from their Grower360 account.

Notifications received through text will contain the *Subject* line and URL link to view the full message in Grower360.
