- 9. Select the Adjustment Payment Method.
- 10. Choose Auto Apply to use the payment on open Invoices with any remaining balance to be placed in Unapplied Cash. Optionally apply this money to Bookings by changing the Payment Type from Regular to Prepay. Alternatively, allow the payment to go to Unapplied Cash for this customer by checking the Use U/A Cash checkbox or answering Yes to the Agvance prompt asking if preferred to place the balance in Unapplied Cash.

The account used by the *Adjustment* Payment Method is cleared because it is used for both the positive and the negative payment.
