

# Print Pack Units and Manufacturer on Invoice

Last Modified on 06/29/2026 1:09 pm CDT

When the *Print Package Units and Manufacturer on Invoice* option is selected on the *G/L Posting* tab at *Accounting / Setup / Inventory Department*, the package units and manufacturer prints on Invoices.

The screenshot shows a software window titled "Inventory Department Information for DFrt00 Dry Fert -00". The window has several tabs: "Profile", "G/L Posting", "Patronage", "Coop Commission", "Price Levels", and "Discount Overrides". The "G/L Posting" tab is active. On the left side, there is a section for "General Ledger Posting Accounts" with five input fields: "<Sales #>" (4510000-00), "<Cost of Goods/Purchases #>" (5510000-00), "<Freight/Add On #>" (5510000-00), "<Inventory #>" (1510000-00), and "<Purchase Disc #>" (5510000-00). Below these are two dropdown menus: "Sales Class" (Agronomy) and "Compute Invoice Cost" (Average). On the right side, there are several checkboxes: "Inventory This Department" (checked), "Sales Posting Item Override" (unchecked), "Cost Posting Item Override" (unchecked), "Include Discount in Cost of Inventory" (checked), "Profit Margin Department" (unchecked), and "Warn if selling price is less than cost" (unchecked). The checkbox for "Print Package Units and Manufacturer on Invoice" is currently unchecked and is highlighted with a red rectangular box. At the bottom of the window, there are navigation arrows and three buttons: "Import Price Levels", "Save", and "Cancel".

Because the setting is at the Inventory Department level, it may be enabled for selected departments, but disabled for other departments. The following example has the preference enabled for the Pesticide department, but not for the Liquid Fertilizer department.
