

Pay Methods

Last Modified on 01/27/2022 10:23 am CST

The names of the methods of payment available at the customer *Payment on Account* screen are set up in the *Pay Methods* area at *Setup / A/R*. Indicate the general ledger account where each type of payment should post for each location. New Pay Methods may be added by selecting **Add Row**.

Note: It is not advisable to edit the *Short Description* or *Long Description* on the *Pay Methods 1 – 10* that were included with the Agvance program files.

The screenshot shows a window titled "Setup Pay Methods" with a table containing 12 rows of payment methods. Each row includes a row number, a pay method name, a short description, a long description, a <00MAIN> account, a 00MAIN Acct I, and a checkbox for "Require Signature for 00".

| | Pay Method | Short Description | Long Description | <00MAIN> | 00MAIN Acct I | Require Signature for 00 |

At the bottom of the window, there is a scroll bar, an "Add Row" button, and "OK" and "Cancel" buttons.

If a Pay Method is erroneously entered or is no longer needed, it may be deleted by selecting the row number then using **Delete** on the keyboard. If the Pay Method has not been used, the delete will be allowed.

A *Require Signature* option is available for each Pay Method per location. This setting affects Quick Tickets and works in conjunction with the Topaz T-S460 SigLite 1" x 5" USB Interface signature capture device. Installation of an additional file is required to utilize the signature pad. Once installed, for the selected Pay Methods, a signature is required when using the *Quick Ticket 40 Character Plain Text* receipt option.
