Roundup Ready Alfalfa - GPOS Reporting for Monsanto

Last Modified on 02/27/2024 11:25 am CST

All Roundup Ready Alfalfa transactions are required to have the field coordinates of the field where the alfalfa was planted reported in the GPOS.

Setup

RR Alfalfa Product

At Accounting / File / Open / Product on the Seed/Lots tab, place a checkmark in the Needs Field Coordinates option. Agvance will be looking at Products with this turned on when exporting to Grower Point of Sales (GPOS) to validate that any Invoice with this Product also contains a Field with the proper field coordinates.

Field Coordinates

At *Hub / File / Open / Field*, each Field has a latitude and longitude. These need to be populated for any Field that will be invoiced for RR Alfalfa.

POS Warning

A POS warning will will display when entering Invoices to confirm invoicing is being done by Field and that the Field has the proper coordinates set up to sell RR Alfalfa. At *Accounting / Setup / Preferences*, select **POS Warnings** to add a new warning.

If a Customer Classification (containing all Customers who will be invoiced for RR Alfalfa) has not already been set up, this will need to be done prior to adding the new POS warning. If no Classifications are set up on the POS warning, then the warning will be effective for all Customers and Products.

Establish a Classification for RR Alfalfa for any applicable Product. The *Warning Level* can be set to *Warn* or *Stop*. A comment should be typed into the *Message* field stating product and invoicing requirements for any transaction in which the Customer and Product are in the Classifications specified on the POS warning.

Invoicing Alert

When an Invoice meeting the POS warning criteria is saved, the following POS warning will display. If the Invoice is by Customer instead of by Field or the field coordinates are not set up, it must be cancelled and re-entered. If all invoicing and product requirements have been met, choose **Continue Save**. The following displays when the *Warning Level* is *Warn*.
