

Grain Pits

Last Modified on 02/01/2024 7:25 am CST

Add a Grain Pit

Pit ID:

Description:

Location:

Message:

Use Multi-Commodity RFID Validation

<Commodity ID>	Commodity Name	Kahler Pit Validation C
----------------	----------------	-------------------------

- **Pit ID** – Enter an ID for the Grain Pit. There is a 15-character limit to this ID.
- **Description** – Enter a description for the Grain Pit. The description is limited to 255 characters.
- **Location** – Select the Location for the pit.
- **Message** – Optionally enter a message.
- **Use Multi-Commodity RFID Validation** – This area can be utilized to send a Commodity code to Kahler pit automation programs. This enables Kahler to determine what Commodity is being dumped in unmanned grain facilities. This setup requires SSI Support to enable the feature once Kahler has installed the proper equipment.
