

Unmark Tickets as Transferred

Last Modified on 02/02/2024 7:52 am CST

At *Utilities / Unmark Tickets as Transferred*, select Scale Tickets to be unmarked that were previously marked as being transferred but did not get transferred to the Agvance Grain module or from a stand-alone scale computer.

The screenshot shows a window titled "Unmark Transferred Tickets" with a table of tickets and a filter section. The table has columns for Transferred, Ticket #, Location, Commodity, Ticket Date, and Customer Name. The filter section includes checkboxes for Ticket Date Range, Transferred Date Range, and Ticket # Range, along with date pickers and a dropdown for Location. There are also buttons for Tag All, Untag All, Apply, Update, and Cancel.
