

# Guaranteed Analysis Blend Ticket

Last Modified on 02/21/2022 11:14 am CST

Create a fertilizer Blend Ticket. Guaranteed Analysis displays only the percentage analysis per 100 pounds on the Invoice and combines the products used to formulate the Blend.

1. Navigate to *Blending / File / Open / Blend Ticket*. Choose the Customer and Field and select **Add**.
2. On the *Select a Field* window, verify the bill splits and choose **OK**.
3. On the *Add Blend Ticket* window, optionally choose a *Crop, Placement*, and enter any *Billing Notes*.
4. Enter the *Quantity* and unit of measurement.
5. Choose the *Product Set, Optimize By, and Price By* styles.
6. Enter the *Lbs of Plant Food* per acre in the *N, P, K, etc.* fields.
7. Select *Guaranteed Analysis* in the *Formulate By* area. Enter the *Lbs of Analysis* per quantity. If *Tons* was selected in Step 5, *Guaranteed Analysis* will default and the *Lbs of Analysis* will be set to 2000.

**Note:** Selecting **Import Blend** allows access to existing Agvance Blends. Use this to access templates for the most common blend scenarios.

8. Choose **Formulate**. The appropriate products and quantities are calculated to meet the requested analysis and display on the *Products* tab.
  - The *Prices* tab displays the *Product Names, Quantities, and Analysis*.
  - The *Blend* tab displays batch breakdowns.
9. Select **Save**.
