

Tank Delivery History Dashboard

Last Modified on 12/05/2022 1:25 pm CST

The Tank Delivery History dashboard is based on data from a daily, scheduled extract.

Purpose

This dashboard displays the number of gallons delivered during a selected date range by tank location and product category.

Details

Choosing the *Location / Category* bar allows the option to drill into the Invoice detail.

Selecting a record in the *Delivered Quantity* gives more detail on the *Delivery Invoices* tab.

Invoice Date can be expanded to include the Invoice number by selecting the +.
