Average Buy Basis on Contracted Units Dashboard

Purpose

This dashboard finds Purchase Contracts entered in a specific date range to assist in tracking average buy basis.

Details

Two dashboards are available with four filters. The two dashboards display contracts entered and also contracts open unfilled units with their average buy basis. Each are broken down by futures month per Commodity.

The four filters affect both dashboards and include these filters:

- Commodity
- Contract Type (Basis Fixed, Futures Fixed, Hedge-To-Arrive, Minimum Priced, Priced, and Priced Later)
- Date Established
- Start Delivery Date Range (It is recommended to leave the last Delivery Date open unless researching a very narrow range)

This dashboard honors user restrictions based on customer location.
