Grain Scale Ticket Activity Dashboard

Purpose

This dashboard displays Scale Interface activity. Scale activity includes all inbound tickets including Commodity transfers.

Details

The day of the ticket delivery shows the first time the Scale Ticket is weighed. This time is illustrated in military time with 12 being noon and 13 being 1:00 PM.

Filters are available including *Ticket Date Range* (which can be keyed in or selected from the calendar), *Commodity*, *Location*, and *Customer*. As filters are applied, the *Average Load-Gross Units* is calculated for the filtered data. The *Number of Tickets* is also displayed for the filtered criteria.

This dashboard honors user restrictions based on customer location.
