Net Position Summary Dashboard

The Net Position Summary dashboard displays Summarized Grain Position data by location.

Purpose

This dashboard shows the daily ins and outs of each Commodity as well as the daily balance for each Commodity.

Details

On the *Net Position Summary* tab, set the *Commodity*, *Report Date*, *DPR*, and *Location* filters. Once all the desired filters are selected, choosing **Click Here to Run** generates a report based on the selected filters and displays the resulting data on the *Net Position* tab. The *Closing*, *In*, and *Out* amounts are displayed per Commodity for each location.
