

Open Assembly Storage and Service Charges Dashboard

Last Modified on 06/15/2023 7:14 am CDT

Purpose

The Open Assembly Storage and Service Charges dashboard provides a list of open assemblies and the storage schedule assigned to each assembly split record. The main purpose of this dashboard is to help monitor the application of schedules to ensure the proper schedule is applied.

Details

Open Assemblies and Storage/Service Charges assigned to each assembly split is displayed with filters for *Disposition (DPR)*, *Charge ID* and *Location*.

Open Assembly Storage and Service Charges provides a list of open assemblies and the storage schedule assigned to each assembly split record.
