Sales Order Analysis Dashboard

Purpose

The Sales Order Analysis dashboard provides the ability to understand the quantity on sales orders being placed. This indicates the *Order Type* (*Pickup, Delivery, Booking*) along with the *Status*.

Details

Filter by *Order Type*, *Status*, and desired *Start* and *End Dates*. Choosing any information on the dashboard filters its equivalent in other areas of the dashboard. A printable version is also available. This dashboard honors user restrictions based on login location.
