

# Balance Sheet Analysis Dashboard

Last Modified on 04/22/2022 4:07 pm CDT

## Purpose

The Balance Sheet Analysis dashboard gives a balance for asset, liability, and capital G/L accounts. This dashboard displays the balances for account types based on filters selected. A year over year comparison and account detail by account type is also shown.

## Details

Choose an Account ID in the Account Detail section to view that account in the Ledger app. The top row of numbers does not filter - it is for the current fiscal month in the current fiscal year.

This dashboard honors user restrictions based on profit center and category.
