Acres Applied Dashboard

This dashboard displays the total acres applied for Blend Tickets completed from the Apply and Dispatch apps.

Purpose

The Acres Applied dashboard displays total acres applied for Blend Tickets completed from the Apply and Dispatch apps. Results are broken down and filtered by the following:

- Location
- Job Type
- Applicator
- Vehicle
- Salesman
- Product

Details

Blend Tickets must be marked as completed in the Apply or Dispatch app in order to display on this dashboard. Additionally, all fields must be completed on multi-field tickets in order for the acres to be included on the dashboard. Acres are calculated from the *Additional Info* tab of the Blend ticket. Voided Blend Tickets are not included.

Select the **Filter** icon at the top right to filter the dashboard by date range (completed date from Apply/Dispatch), *Loaded* status, *Location*, and/or *Custom Applied* status. The dashboard can be further filtered by selecting a *Job Type*, *Applicator*, *Vehicle*, *Salesperson*, or *Product* from the dashboard results.
