

Agronomy Operations Dashboard

Last Modified on 08/10/2022 3:40 pm CDT

This dashboard displays a count of tickets in various stages of agronomy operations. It is based on data from a scheduled extract that occurs daily.

Purpose

Agronomy Operations displays a count of tickets *Pending Dispatch Jobs*, *Loaded Blend/Delivery Tickets to Invoice*, *Blend/Delivery Tickets to Load*, and *Open Scale Tickets in Scale Interface*.

Pending Dispatch Job and In Process Dispatch Jobs include both Delivery and Blend Tickets which have not yet been invoiced.

Details

Pending Dispatch Jobs displays tickets with *Ready* as the *Job Status*. A job is considered *Assigned* when it has been assigned to an applicator.

In Process Dispatch Job displays tickets with *In Process* as the *Job Status*.

The *Location* filter only filters loaded tickets to Invoice and Tickets to Load charts.
