Energy Driver Efficiency Dashboard

Last Modified on 08/01/2025 10:22 am CDT

This dashboard is based on data from a scheduled extract that occurs daily.

Purpose

This dashboard helps measure the efficiency of drivers based on average number of gallons delivered per stop. *Dollars/Gallon* shows the dollars charged on the gallons delivered per driver, per product.

Details

This dashboard can be filtered by *Driver*, *Tank Location* and/or *Region*, and *Department Category*.

Selecting a year, location, or driver on the *Average Gallons per Stop* tab navigates to and filters the *Details of the Average Gallons per Stop* tab.
