Scale Turnaround Dashboard

Last Modified on 10/02/2024 8:43 am CDT

This dashboard is based on data from a scheduled extract that occurs daily and honors User restrictions based on login Location.

Purpose

This dashboard displays a line graph of number of tickets, Gross Units, Net Units, and average time to capture two weights per day. This is displayed per Location and gives the company Average Time, Number of Tickets, and Units.

Details

Filters include *Commodity, Location ID, Beginning Date, Ending Date,* and *Inbound / Outbound.*
