## Purpose

The *Not on Invoice* tab displays products not included on any Invoice for the current data.

The *Zero Sum Quantity* tab displays products that have been invoiced. However, the net of the invoiced quantities is zero. On both tabs, selecting the *Department ID* drills down to the where the Product is dormant and active. Both tabs also include the *Amount on Hand*.

## Details

The *Not on Invoice* tab can be filtered by *Location* and/or *Invoice Date Range*.

The *Zero Sum Quantity* tab can be filtered by *Fiscal Year* and/or *Location*.

Selecting the + to see the departments where the product(s) are dormant displays additional products. The drill-down feature causes the dashboard to look at the department\product level as opposed to just the product within all departments.
