## Grower360 Error Page

Last Modified on 02/16/2024 3:55 pm CST

Growers seeing an Error page with the broken tractor and Oops message will need to clear cookies for the Grower360 site to correct the error.

## **Option 1: Copy and Paste**

- 1. Open a Chrome Browser tab.
- 2. Copy and paste the following into the URL bar: chrome://settings/siteData?searchSubpage=grower360
- 3. Select the Trash Can icon next to the Grower360 site name.

~ 1	Settings - All sites × +		
<b>←</b> ·	→ C	page=grower360	
9	Settings	Q. Search settings	
•	You and Google	← All sites	् grower360 🛞
Ê	Autofill and passwords		
•	Privacy and security	Sort by Most visited	
Ø	Performance	Total storage used by displayed sites: 51.8 MB	Delete displayed data
æ	Appearance	a.demo.grower360.net	v 🔳
Q	Search engine	51.8 MB	

**Option 2: Over-the-Phone Instructions** 

- 1. Open Google Chrome.
- 2. Go to Settings.

3. Select Privacy and security from the left navigation panel.

4. Choose Third-party cookies.

5. Scroll down and select See all site data and permissions.

- 6. In the Search field, key in grower360 (all lowercase).
- 7. Choose the Trash Can icon.
