To display Fields for a specific Farm, filter the results by typing the Farm Name in the *Search* field at the top of the page.

Selecting a Field displays the *Field Details* page for that Field:

- **Tillage Type** – View the *Tillage Type* or select the **Pencil** icon to edit.
- **Field Splits** – This displays each responsible party on the Field along with the percentage of the Field for which they are responsible.
- **Crop Information** – If applicable, the *Crop Year*, *Crop*, and *Crop Chemistry* display.
- **FSA Information** – Select **+ Add FSA Information** to add Farm Service Agency information to that field if needed/available. At least one field must be populated in order to **Save**.

- **Current Conditions** – This displays the current weather conditions including the high and low temperature for the day, rainfall in the last 24 hours, and wind speed and direction.

- **Maps** – This displays a satellite image of the Field based on the current mapped information on record with the retailer. Selecting **Explore** displays a full-page view of the map for that Field, along with available soil test results for that Field. SKY Mapping Layers (*Soil Type*, *Application Layer*, and *Yield Layer*) display on the field if

linked to SKY Mapping. More information regarding setting up SKY Mapping layers in SKY Admin can be found [here](#).

- **Plans** – Plans marked as *Visible in G360* in SKY Customer display under the *FSA Information* section with the *Plan Description* and *Status*. Select **View Plans** for more information. The **Expand** button can be selected to view additional details. The option to *Reorder Products* (if this is turned on in **SKY Admin**) is available under the **Ellipsis**. More on reordering Products can be found [here](#).

**Note:** Plans priced by Analysis display only the analysis and no product information.
