

Grower360 Energy

Last Modified on 11/13/2024 9:47 am CST

Energy Tanks and tickets associated with those tanks can be viewed from the **Energy** menu option in Grower360. This option only displays for Growers set up in the Agvance Energy module.

A listing of active Energy Tanks displays the Tank name or serial number, *Last Del Product*, *Tank Size*, *Last Fill Amt*, *Last Fill* date, *Tank %*, and *As of* date for the *Tank %* reading.

Note: If Tank Monitor Readings are being recorded within Agvance, those values will display in the *Tank %* area.

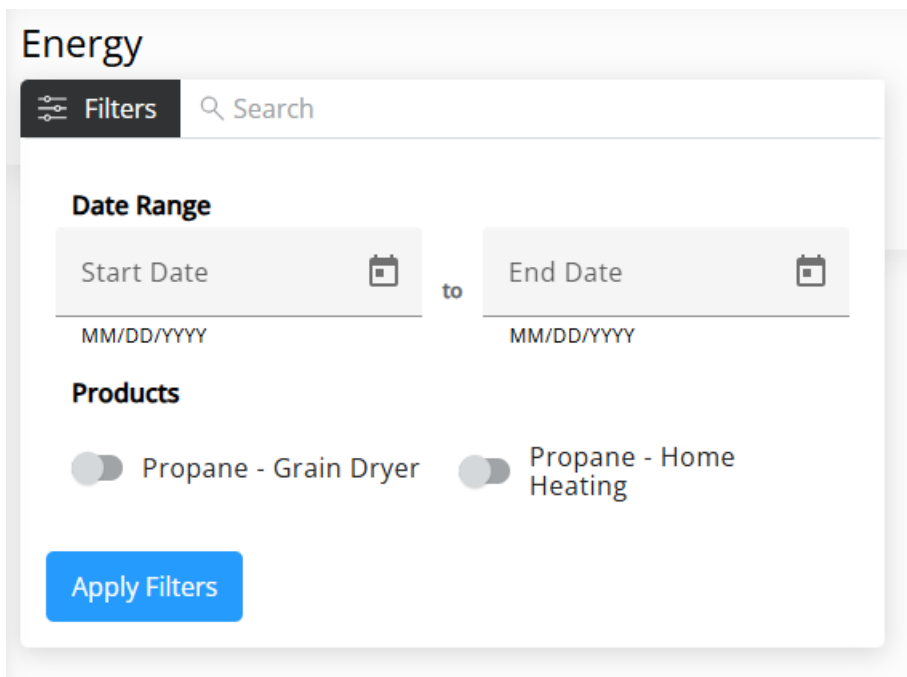

The screenshot shows the 'Energy' section of the Grower360 interface. A sidebar on the left contains navigation options: Overview, Resources, Bookings, Blend Tickets, Delivery Tickets, Invoices, Payments, Statements, Products, Fields, Patronage, and Energy (highlighted). The main content area is titled 'Energy' and includes a search bar and a 'Filters' button. Below this is a table with two rows of energy tanks. The first row is for a 'Grain Dryer' tank with a size of 1000 gal and a last fill amount of 50 gal. The second row is for a 'Home Heat' tank with a size of 800 gal and a last fill amount of 0 gal. Both tanks show their last fill date and current tank percentage.

| Tank Name | Last Del Product | Tank Size | Last Fill Amt | Last Fill | Tank % | As of | Actions |
|-------------|------------------------|-----------|---------------|------------|--------|------------|---------|
| Grain Dryer | Propane - Grain Dryer | 1000 gal | 50 gal | 09/18/2024 | 70% | 09/18/2024 | ... |
| Home Heat | Propane - Home Heating | 800 gal | 0 gal | 11/09/2024 | 85% | 11/09/2024 | ... |

Note: It is important the Energy Tank names in Agvance are set in a way that is fitting for the Customer to view. Best practice is to name these Tanks in a way that makes sense to the Customer as well as staff.

Tanks can be filtered by selecting **Filters** to the left of the *Search* field. Selecting **Filters** displays options to filter tanks by *Date Range* (which is the *Last Fill* date) or *Products*. Tanks can also be searched by the Tank name or *Product*.

The filters selected display below the **Filters** button.

To view Energy tickets associated with a Tank, select the Tank from the list. Each Energy ticket associated with that Tank displays, including the *Service type*, *Service Date*, *Units*, *Inv. Amt*, and *Invoice #*. Select the **Expand** icon to view the *Delivered Product*, *Unit Price*, and *End Fill %*.

The *Estimated Tank Fill Percentage* displays at the top of the page. These tickets can also be filtered by choosing **Filters** and selecting a *Start* and *End Date*. Additionally, tickets can be searched by the associated Energy ticket # or the *Invoice #*.

Navigate back to the Energy Tank listing by selecting *Energy* from the breadcrumbs at the top of the page.
