

Mapping Commodities

Last Modified on 12/21/2022 8:37 am CST

Q. What are mapping commodities, and why are they needed?

A. Commodities are necessary in Agvance Mapping for processing Field Ops files, such as yield data, planting data, and application data. Typically, a special inventory department is setup for these items.

If setting up Mapping commodities, please contact SSI at 1-800-752-7912 to assist with completing this task.
