

# Edit to Actual Scale with Bagged Micros

Last Modified on 12/20/2022 4:35 pm CST

**Q. When editing a blend to actual scale, how is it possible to make sure that the bagged micro product does not get prorated?**

A. On the *Edit to Actual* screen, uncheck the *Prorate* option for the product that is not to be prorated. The most common use of this would be for bagged product.
