

Agvance Products With the Same EPA Numbers

Q. Some Agvance products have the same EPA numbers. For example, Touchdown Total and Traxion show the same EPA numbers:

Touchdown Total – 0000100-01169-AA-0000000

Traxion - 0000100-01169-ZA-0000000

A. In this case, it has been confirmed with a regulatory company that some products do have the same EPA number. This will not cause an issue in Agvance.
