## **OKI** Data Printer Setup

Last Modified on 06/17/2024 10:44 am CDT

The following describes how to configure OkiData 320 Microline printers with USB connections to print Wide-3 format Agvance Grain Scale Interface Scale Tickets. This article can also be used as a general guide for setting up these printers for other Scale Ticket formats.

## Setup

- 1. Plug the USB cable into a USB port. The print driver automatically loads in Windows 8.
- 2. Select the printer and choose Print Server Properties at the top of the page.

 Check the Create a new form checkbox and enter Oki Data ticket form in the Form Name text box. Change the Width and Height to 8.50in and 5.50in respectively. Select OK to save the form and return to the Devices and Printers window.
