

# Scale Ticket Level Management - Mass Edit Header Values Utility

Last Modified on 06/27/2024 2:59 pm CDT

In Grain, there are two models of operation:

- The Standard model where Scale Tickets are directly associated to the Assembly
- Scale Ticket Level Management where Scale Tickets have an independent relationship to the Assembly.

Setup for these two models is inherently different and therefore not interchangeable within Grain.

The information in this article is specific to the Scale Ticket Level Management model.

The Mass Edit Header Values utility allows Scale Ticket information to be updated on multiple Scale Tickets at the same time.

The following Scale Ticket information can be optionally updated:

- *Assembly #*
- *Date*
- *Farm ID*
- *Field ID*
- *Lot Number*
- *Comment*
- *Freight Vendor*
- *BL/Car #*
- *Bin*
- *Base Price*

## Updating Scale Ticket Header Information

1. This utility is found at *Grain / Utilities / Mass Edit / Header Values*.
2. Select the Scale Tickets to be updated.
3. Use filters to help narrow the list of Scale Tickets.
4. If using the *Grade Factor* grid, optionally set a *Min Value* and *Max Value* to select tickets with a Grade Factor above or below the specified values then choose **Load List**.
5. Choose **Done** when all Scale Tickets are selected. The selected Scale Tickets are loaded into the top grid of the *Mass Edit Header Values* window.

Mass Edit Header Values

	Assembly ID	Location ID	Commodity ID	<Ticket #>	Date	Farm Grower ID	Farm ID	Farm Description	Base Price	Field Grower ID	Field ID	Field Des
1	51	00MAIN	Corn	8001	01/29/20...				0.0000			
2	51	00MAIN	Corn	8002	01/29/20...				0.0000			
3	51	00MAIN	Corn	8003	01/29/20...				0.0000			

< [Progress Bar] >

<Assembly #>  ? Location  Commodity  Load Information  
 Date    
 <Farm ID>   <Bin>  ?  
 <Field ID>   Base Price   
 Lot Number   
 <Comment>   
 <Freight Vendor>   
 BL/Car #   
 Freight Rate  Save Cancel

6. Select the Scale Ticket with the information to use as the default when updating other tickets then choose **Load Information**.

7. Use **View** to review the Scale Ticket information on a ticket before selecting it.

8. Select the checkbox by each item to be edited.

- **Assembly #** – The *Assembly #* must be for the same *Commodity* and *Location* of the Scale Tickets selected.
- **Date** – The Scale Ticket date will be updated on all Scale Tickets selected with unsettled units.
- **Farm ID, Field ID** – The *Farm ID/Field ID* will be updated for the selected Scale Tickets with unsettled units. If only updating the Farm ID and not the Field ID or vice versa, validation happens for each ticket to ensure the selected Field ID is for the selected Farm ID.
- **Lot Number** – The *Lot Number* on the selected Scale Tickets with unsettled units will be updated.
- **Comments** – The *Comments* on the selected Scale Tickets with unsettled units will be updated.
- **Freight Vendor (at Ticket Level)** – This updates the Vendor on the Scale Ticket. If there are freight charges, the Vendor is updated for them as well. The *Freight Vendor* on the ticket may not be changed or deleted once there is a reconciled freight charge on the Scale Ticket.  
**Note:** Scale Tickets cannot have multiple freight charges.
- **Freight Rate** – If a *Freight Rate* is entered and no charge record exists, a charge record will be added for the Freight Vendor being assigned in this utility or using the Freight Vendor saved on the ticket.  
**Note:** Freight always calculates based on Gross Units.
- **BL/Car #** – The *BL/Car #* will be updated.
- **Bin** – Selecting a *Bin* updates the average Grade Factor results based on the Scale Tickets being assigned to that Bin. The *Bin Type* on the Scale Tickets will be validated to disallow changing the from *Regular* to *Unapproved Storage* or vice versa.

**Note:** A Bin Capacity warning message will display if it is configured on the newly selected Bin.

- **Base Price** – Setting a *Base Price* on the selected Scale Tickets will update the Non-Contracted Priced split line items, including lines already settled. If the Drying Schedule is by percent of Base Price on the split line, the drying rate and totals will be updated accordingly.

**Note:** If any of the Schedules for Grade Factors (not used for drying) are by percent of Base Price, their Premium/Discount value and total will be updated accordingly.
