

Current Market Valuation Report Not Reflecting Shipment/Settlement Adjustments

Last Modified on 12/20/2022 4:40 pm CST

Q. Market Valuation Report not reflecting Shipment/Settlement adjustments.

A. The Current Market Valuation report may appear to be off by the amount of units that are found on the shipment settlements. The adjusting amounts do not affect this report until the shipment settlements are posted. After posting, the contract totals will reflect the adjusting units.
