Message Regarding Analysis Line Item Saved Below a Non-Analysis Line Item

Last Modified on 05/17/2024 1:34 pm CDT

Q. While saving a Blend Ticket I received the message:

'You have an analysis line item listed below a non-analysis line item. You cannot save a Blend Ticket ordered in this manner.'

How can I fix this issue?

A. In Agvance, this message will pop up on the save of a Blend Ticket if the first item in the *Product* grid is not an analysis Product followed by Analysis Products. If any Analysis Products are listed on the Blend Ticket, the first Product must be an Analysis Product.

  If the message does occur, identify the analysis line item or Product in the grid. The Analysis Product is determined by the Inventory Department in which the Product resides. That Inventory Department, *Hub / Setup / Inventory Department*, is set to a *Scale Default to Use*, shown as *Scale 3* in the example below. In this example, the scale is set as an *Analysis* scale which is found at *Blending / Setup / Location Preferences*.
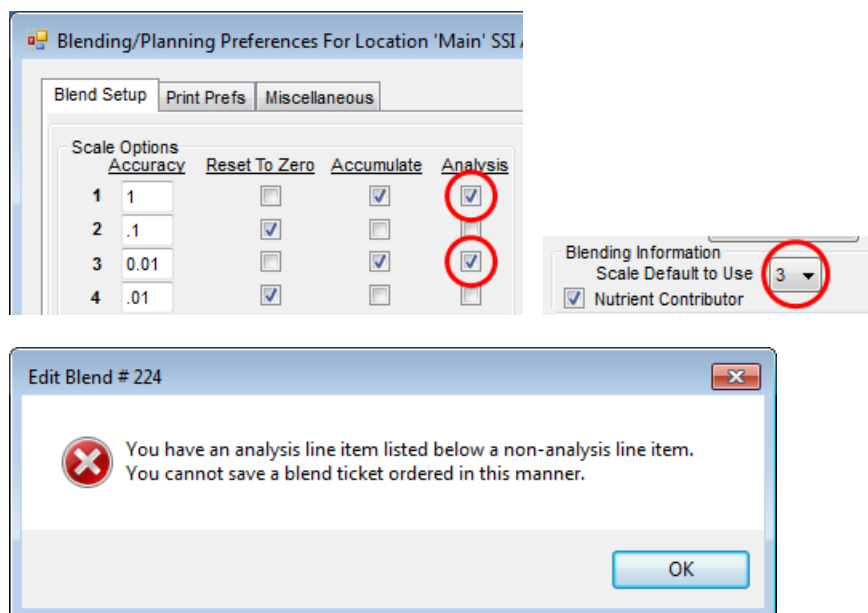

After receiving the message above, there are two ways to solve the issue in the example shown below.

1. Open the *Products* tab; find the *Order* column on the right. Type in an order for each of the Products that moves at least one of the analysis item(s) to the first in the list, and then click the **Reorder Products** button.

Edit Blend # 224

General | Products | Prices | Blend

Acres 38   Set Basic Dry   Target lbs of Analysis 100   Reorder Products

	<Product Name>	Rate/Acre	Unit	Total Produc	Unit	Blended	Blended Unit	Scale	Order	Crop Code	Lot #
1	Water for Post Application	10.000	Gal	380.000	Gal	380.000	Gal	4	5		
2	0-0-62	22.200	Lbs	843.600	Lbs	843.600	Lbs	3	4		
3	10-34-0	44.400	Lbs	1687.200	Lbs	1687.200	Lbs	3	3		
4	12-0-0-26	13.320	Lbs	506.160	Lbs	506.160	Lbs	3	2		
5	28-0-0	44.400	Lbs	1687.200	Lbs	1687.200	Lbs	3	1		

Recalc using Rate/Acre | Recalc using Total Product | Recalc using Blended | Recalc using Scale

Apply   <Ship From Location>

Density 71.915   % Water 58.212   % Clay 0

2. Or go to the *Hub / Products / Edit* and find the non-analysis Product. Edit that Product, and move it into an analysis department. In the case of water, there may be several water Products in different departments. Make sure the water Product selected for the Blend Ticket is in an analysis department, such as the Liquid Fertilizer Department, to avoid this message.
