

Chrome Default Opening of form-U-net Documents

Last Modified on 01/27/2025 9:28 am CST

Q. How can Chrome be set as the default browser to open form-U-net documents directly instead of using Adobe Acrobat Reader?

A. The Chrome browser may be setup as the default to open form-U-net documents using the Plug-ins in Chrome. To view the Chrome Plug-ins and their statuses, go to the address bar of the browser, type in 'Chrome://plugins', and then press the **Enter** key on the keyboard. The following page displays the list of available Plug-ins and their statuses. Chrome PDF Viewer or Adobe can be enabled to open pdf files.

The screenshot shows the Chrome://plugins page in a browser window. The address bar contains 'chrome://plugins'. The page title is 'Plug-ins' with a puzzle piece icon. Below the title, there is a section 'Plug-ins (14)'. The list of plugins includes:

- Widevine Content Decryption Module** - Version: 1.4.7.771
Enables Widevine licenses for playback of HTML audio/video content. (version: 1.4.7.771)
[Disable](#) Always allowed
