

Quoted Prices Don't Appear When Importing Plan Into a Blend Ticket

Last Modified on 05/28/2025 11:20 am CDT

There are two ways to import a Field Plan into a Blend Ticket.

Option 1 is the only way to bring across quoted prices from the Field Plan into the Blend Ticket.

Option 1

Use the *Plan* drop-down menu to view all the Field Plans available for this field.

The screenshot shows the 'Edit Blend # 541' window with the 'Plan' dropdown menu open. The menu lists the following options:

Plan	Placement	Ordered	Date
A	01/06/2023	00MAIN	Spring Fertility Program
B	01/08/2023	00MAIN	Preplant Chemical Program
C	03/06/2023	00MAIN	Corn NH3
D	11/18/2023	00MAIN	APPROVED
E	02/01/2023	00MAIN	
F	06/29/2023	00MAIN	
G	06/29/2023	00MAIN	
H	08/03/2023	00MAIN	

The background window shows various fields for blend creation, including Customer ID (AndBa), Field ID (BA-01), Blend Type (Calculated Analysis), and various nutrient input fields (N, P, K, S, HA, Ca, Mg, Zn, Fe, Mn, Cu, B). The 'Import Blend' button is visible in the 'Agrian Rec' section.

Option 2

Select **Import Blend** to view all the Blends and Field Plans entered for all Fields and Customers.

Note: This method will not preserve quoted prices.
