

# Change Order of Products on Blend Ticket or Field Plan

Last Modified on 12/20/2022 4:42 pm CST

**Q. How can products be re-ordered on the Blend Ticket or Field Plan?**

A. Edit the Blend Ticket or Field Plan and click on the *Products* tab. In the grid, scroll to the right until the *Order* column displays. Enter the desired order for the products to be listed, and select the **Reorder Products** button.

The screenshot shows the 'Add Blend Ticket # 255' window with the 'Products' tab selected. The interface includes a header with 'Acres' (19.7), 'Set' (Basic Dry), and 'Target lbs of Analysis' (2000). A 'Reorder Products' button is highlighted with a red box. Below is a table with columns: Product Name, Top Code, Container, Order, Unit Weight, Rate2Blnd, Blnd2Inv, BillDiv, Density, and TotalV. The table lists three products: Potash (0-0-60), Urea (46-0-0), and Dap (18-46-00). The 'Order' column values are 0, 1, and 3 respectively. Below the table are buttons for 'Recalc using Rate/Acre', 'Recalc using Total Product', 'Recalc using Blended', and 'Recalc using Scale'. A summary section shows fields for Density (58.977), % Water (0), % Clay (0), CuFt/Acre (5.533), Total CuFt (109), Est Salt Out Temp (N/A), Lbs/Acre (326.331), and Total Lbs (6420). At the bottom are buttons for 'View Analysis', 'Show Splits', 'Additional Info...', 'Edit to Actual', 'Capture Blender', 'Save', and 'Cancel'. A 'Print on Save' checkbox is checked.

	<Product Name>	Top Code	Container	Order	Unit Weight	Rate2Blnd	Blnd2Inv	BillDiv	Density	TotalV
1	Potash (0-0-60)		▼	0	1	1	1	2000	72	15.300
2	Urea (46-0-0)		▼	1	1	1	1	2000	60	155.00
3	▶ Dap (18-46-00)		▼	3	1	1	1	2000	57	156.00
