

Print Field Attachments at Blend Ticket Window

Last Modified on 02/28/2022 11:34 am CST

Overview

When adding or editing a Blend Ticket, attachments that have been saved to the field in the Hub may be viewed and printed.

Setup

On the *Add* or *Edit Blend Ticket* window, select the ? button to the right of the *Field ID*. If any attachments are saved with this field, the button displays red.

Select the **Attachments** button. Any attachments saved with this field in the Hub will display along with the *Category* assigned and any *Comments*.

To view, double-click on the attachment. This opens the attachment using the appropriate software installed (e.g., Adobe Acrobat, Word, etc.). If desired, the attachment may be printed.
