

Scale Ticket Not Showing for Import into a Delivery Ticket

Last Modified on 09/06/2024 2:46 pm CDT

When a Scale Ticket is made for a Delivery Ticket type and does not have a valid product selected, it will not be available to import into the Delivery Ticket using the **Import Scale Ticket** button.

In order for this Scale Ticket to be available, choose the product on the Delivery Ticket, and double click in the *Gross* column. This shows the Scale Tickets that are available to import for the selected customer.

	<Product Name>	<Gross>	<Tare>	Net	Unit	Use	Load Amount	Unit	Lot Number	<Crop Cod>	Container	<Addon Code>	Comm
1	28-0-0	0.000		0.000	Lbs		0.000	Lbs					

The Scale Ticket should now be shown and able to be imported.
