

Planning - Cannot Add a Plan A

Last Modified on 12/21/2022 9:06 am CST

Q. Why does Agvance not allow a *Plan A* to be added in Agvance Planning.

A. In this instance, *Plan A* already exists. The next available letter defaults, but any letter may be selected that is not already being used for this field. To use *Plan A*, review the existing *Plan A* to see if it is still needed. If it is not needed, delete the plan, and then *A* will be available to use.
